TCT Russia 2021

NOVEMBER, 22

15:20 – 16:20

DISCUSSION CLUB

supported by Cardiomedics / Boston Scientific

«Endovascular technologies in CAD diagnostics and treatment»

Moderators: Bagrat Alekryan, Sergey Abugov

Participants:

Igor Zyryanov, Konstantin Polyakov, Dmitry Stolyarov,
Anton Staferov

15:20

Synergy Megatron – a position of the specialized coronary stent in left main stem PCIs.

Evgeny Merkulov (*Moscow*)

15:35

Precise stents implantations in a patient with MVD using SPAS.

Artem Komkov (*Moscow*)

15:45

PCI in CTOs: current evidence and methodology.

Oleg Krestyaninov (*Novosibirsk*)

16:05

IVUS in PCI: what can we see and how to apply it in clinical practice?

Zaur Shugushev (*Moscow*)

18:20 – 19:20

DISCUSSION CLUB

supported by Cardiomedics / Boston Scientific

«Novel technologies in chronic limb ischemia treatment»

Moderators: Bagrat Alekryan, Zaza Kavteladze

Participants:

Narek Zakaryan, Mikhail Chernyavsky, Boris Rudenko,
Alexey Mizin, Mikhail Movsesyantz

18:20

Endovascular atherectomy: a position of the technology in CLI. Sharing experience and recommendations for using the JetStream system.

Zaza Kavteladze (*Moscow*)

18:35

Discussion.

18:40

Paclitaxel-eluting stent ELUVIA. MAJESTIC, IMPERIAL, EMINENT trials: is the evidence sufficient?

Mikhail Chernyavsky (*Saint Petersburg*)

18:55

Discussion.

19:00

Ranger DCB device: a position of the technology in chronic limb ischemia interventions, clinical safety and efficacy.

Narek Zakaryan (*Moscow*)

19:15

Discussion.
